Glycol and Ice Bank Equipment Catalogue

www.andale.com.au
Introducing Andale

Andale have been manufacturing beer dispensing equipment since 1947. From humble beginnings in a small factory in the Melbourne suburb of Brunswick, to a national company with outlets in Brisbane, Adelaide, Sydney, Somersby (N.S.W.) and Melbourne, Andale have grown to become Australia’s largest manufacturer, supplier and installer of beer dispensing equipment.

The team at Andale are passionate about what they do and this is displayed in the products produced. Our philosophy wherever possible is to manufacture everything in-house to meet Andale’s strict quality guidelines.

A further extension of this philosophy is Andale employing our own staff to install our Australian made beer dispensing systems. This helps to maintain the high quality standards that have become Andale’s trademark within the industry.

At Andale, we believe the integrity of the product dispensed through our equipment must not be compromised, to provide a beer that is presented as the brewer intended. Cold, clean and fresh.

History has shown that Andale’s innovative design and manufacture of beer dispensing equipment has been at the cutting edge of the industry and helped to enlighten customer’s awareness of the delights of tap beer.

Andale - A Passion for Tap Beer

To compliment our range of high quality beer dispensing equipment, Andale stock the following high quality brands;

- Valpar tubing
- Matttowoc/ Scotsman Beer Coolers
- ITT FLojet pumps and accessories
- Micromatic dispensing equipment
- Oetiker Clamps
- Armacell insulation
- Grundfos Pumps

From preventative maintenance service to the installation of beer dispensing systems in Australia's largest stadiums, clubs and hotels, no job is too big or too small, Andale can do it all.

Beer Dispensing Equipment

* Sales * Service * Installation
Since 1947

<tbody>
<tr>
<td>09310060</td>
<td>2KW/40V COOLGARDIE G/CHILLER-1P/R 404A</td>
</tr>
</tbody>
</table>

### Standard Features...
- ♦ 675mm H x 405mm D x 545mm W
- ♦ Volume capacity: 40 litres
- ♦ Refrigeration capacity: 2kw
- ♦ Pump: Grundfos SPK 2-11 (standard)
- ♦ Power required: 10amp waterproof GPO
- ♦ Refrigerant: R404a (standard), 134a and R22 (optional)
- ♦ Thermostat: Carel IR33
- ♦ Comes with floor stand (ceiling stand optional)
- ♦ Hinged split lid for easy service

## 70ltr Coolgardie Glycol Tank
